

CORRIGENDUM-I

Subject: Tender for empanelment of Cloud Service Providers for various Government Organizations of Goa.

Following are the changes that are considered in the Tender Document.

Corrigendum – I

CHAPTER 6 Scope of Work				
Sr. No.	Tender Doc. Page No.	Tender Document Clause No.	Present Clause Details	Changed Clause Details
1	23	1.4	The Bidder will be responsible for provisioning of required IT infrastructure as IaaS & PaaS for hosting web applications of Client Organization and SaaS for other monitoring services etc.	The Bidder will be responsible for provisioning of required IT infrastructure as IaaS & PaaS for hosting web applications of Client Organization and SaaS for other monitoring services etc.(Please list down the services which will be offered by the bidder/CSP with rates)
2	23	1.7	There should be minimum 99.75% up time measured monthly for availability on 24 x 7 basis of the virtual machines and related services at the respective Data Center site.	There should be minimum 99.50% up time measured monthly for availability on 24 x 7 basis of the virtual machines and related services at the respective Data Center site.
3	24	1.10	DR site should not be in the same premises as DC site. Both DR and DC sites should lie within India.	DR site should not be in the same premises as DC site. Both DR and DC sites should lie within India. (DC and DR should be minimum 100 Km apart.)
4	27	1.21.6.1	For "Premium Block Storage (SSD) for Database - Production Environment", the provisioned storage should provide minimum 3 IOPS per GB per volume.	For "Premium Block Storage (SSD) for Database - Production Environment", the provisioned storage should provide minimum 5 IOPS per GB
5	27	1.21.6.2	For "Standard Block Storage for Database - Development / Pre- Production Environment", the provisioned storage should support up to 500 IOPS per volume and maximum throughput of 50 MB/s per volume.	As we are changing SAN's to SSD this point is removed.

CHAPTER 12 Service Level Agreement

1	47,48	1. Target/Service Level	Availability for each of the provisioned resources: >=99.75%	Availability for each of the provisioned resources: >=99.50%
2	47,48	1.Penalty	Default on any one or more of the provisioned resource will attract penalty as indicated below. • < 99.75% & >= 99%(10% of the<<Periodic Payment>>)* < 99% and >= 95%(30% of the<<Periodic Payment>>)* <95% 100% of the<<Periodic Payment>>)	Default on any one or more of the provisioned resource will attract penalty as indicated below. • < 99.50% & >= 99%(10% of the<<Periodic Payment>>)* < 99% and >= 95%(30% of the<<Periodic Payment>>)* <95% (100% of the<<Periodic Payment>>)
3	48	2. Target/Service Level	Availability for each of the critical services over both the User /Admin Portal and APIs (where applicable) >= 99.75%	Availability for each of the critical services over both the User /Admin Portal and APIs (where applicable) >= 99.50%
4	48	2.Penalty	Default on any one or more of the services on either of the portal or APIs will attract penalty as indicated below • < 99.75% and >= 99% (10% of the<<Periodic Payment>>)* < 99% (10% plus 2% of the <<Periodic Payment>> for each percentage drop below 99%)	Default on any one or more of the services on either of the portal or APIs will attract penalty as indicated below • < 99.50% and >= 99% (10% of the<<Periodic Payment>>)* < 99% (10% plus 2% of the <<Periodic Payment>> for each percentage drop below 99%)

CHAPTER 14 Commercial Bid Format

Table-A

For Production Environment (Web + Application Server) / Web Server/ Application Server					PRICING (MONTHLY/YEARLY)			
OS	TYPE	Configurations	Minimum-Space(5IOPS/GB)	Type of Storage	Cost in Rupees	GST in %	Total Amount in Rupees	REMARKS
Open Linux Server (CentOS)	SMALL	VM with 1vCPU, 2GB RAM	80GB	SSD
